

## What can AI do for you?

### 1. List three things you would need to do in each of these situations.

you are planning  
a birthday party

you want to do  
some sightseeing

you should revise  
for a test

### 2. Match the halves.

- |   |   |
|---|---|
| a) You should contact them if you want to figure out <b>6</b>       | 1) 24/7, especially if a big party is taking place. |
| b) They can give you expert <b>3</b>                                | 2) information on meal planning.                    |
| c) Just ask them and they will provide useful <b>2</b>              | 3) advice on creating study plans.                  |
| d) Sometimes they need to be available <b>1</b>                     | 4) workout plan.                                    |
| e) They will give you valuable tools to <b>5</b>                    | 5) deal with problems in relationships.             |
| f) When you ask them about something, they usually respond <b>7</b> | 6) how to have the best holiday of your life.       |
| g) They can create a personalized <b>4</b>                          | 7) with a smile.                                    |

### 3. Decide which profession in the box the statements in ex. 2 describe. One statement can describe all professions.

dietitian

event planner

fitness coach

therapist

travel agent

tutor

a) travel agent, b) tutor, c) dietitian, d) event planner, e) therapist, f) any profession, g) fitness coach

### 4. Complete the statements with your own ideas.

- a) Some therapists are available 24/7 because...
- b) If you google a workout plan, it won't be personalized because...
- c) If you want to organize a wedding for 200 people, you should figure out how to...

## What can AI do for you?

- d) A website or a social media account that provides useful information on learning English is...
- e) You need to respond to customers politely, especially if your job is...
- f) Some health apps give you expert advice on...
- g) A valuable online tool to plan a trip is...

### 5. Discuss what you would do in these situations. Explain your answers.

- You want to become fitter. Do you hire a fitness coach or download a fitness app?
- You want to improve your Excel skills. Do you hire a tutor, sign up for a course or study yourself?
- Your doctor said you should put on weight. Do you go to a dietitian or use a diet app?
- You want to go on a month-long trip to a different continent. Do you hire a travel agency or do you plan the trip yourself?
- You need some expert advice on taxes. Do you talk to an accountant or a lawyer, or do you look for the advice online?

### 6. Read about ChatGPT and answer the questions.

ChatGPT is an artificial intelligence (AI) chatbot. It is trained to answer questions and follow instructions. A user gives it a prompt (a question or an instruction) and ChatGPT responds in seconds. It is a useful tool that can write emails, articles or code, answer test questions, give you expert advice on any topic and much more. Users can also have a simple conversation with it. Just pick a topic you are interested in and start chatting!

- Have you used ChatGPT? If you have, what did you ask it? If you haven't, what would you like to ask it?

## What can AI do for you?

**7. You are going to watch a video about ChatGPT. Decide which statements might be true for the tool.**

- a) It's available 24/7.
- b) It provides recipes and can create a shopping list.
- c) It can read you a story.
- d) It can respond by showing you a picture.
- e) It can create a study plan based on a prompt.
- f) It can figure out how to fix your relationship.
- g) It can do yoga with you.

**8. Watch the [video](https://youtu.be/ON9XPDE-2NA) [https://youtu.be/ON9XPDE-2NA] and check which things in ex. 7 ChatGPT can do according to the video.**

[As the speaker in the video speaks rather fast, you might consider slowing the video down a bit. To do this, go to Video Settings, select Speed and choose 0.75.]  
The things mentioned in the video: a) [00:38], b) [00:48], e) [01:38], f) [01:49]

**9. Look at the statements from the video and guess what word is missing in each gap. Then, watch the [video](#) again and check your answers.**

- a) You won't believe your eyes when you see what it can do. Get ready to be **amazed!** [00:10]
- b) It's like having your own **personal** fitness coach available 24/7. [00:38]
- c) ChatGPT is also a lifesaver when planning the perfect **trip**. [01:14]
- d) No more stressing about how to fit everything in! Your new AI assistant will **figure** it all out for you. [01:43]
- e) Planning an event or party can be super stressful but this **tool** can make it a whole lot easier. [02:04]
- f) These are just a few examples of how to use ChatGPT (by OpenAI) to totally change your **life** for the better. [02:35]

**10. Discuss the questions.**

- What do you think about the abilities of ChatGPT? Do you think the tool is good at helping people?
- How could ChatGPT help with these tasks?

## What can AI do for you?

- planning a birthday party
  - going sightseeing
  - revising for a test
- Would you like to use ChatGPT for other activities mentioned in the video?
- What else would you like to ask it?

### [EXTRA TASKS:

This task will be very useful if your students haven't used ChatGPT before. They will need to give ChatGPT some prompts and see how it responds. Go to [chat.openai.com](https://chat.openai.com) (you'll need to create an account beforehand) and give students the following tasks:

- a) There are eggs and cucumbers in your fridge. Ask ChatGPT for a recipe that uses these ingredients.
- b) Think of a city and ask ChatGPT to create a weekend sightseeing trip there. Tell it what you like (e.g. museums) and don't like (e.g. shopping).
- c) Use ChatGPT to figure out the best way to learn ten new English words a week. Also, ask it to create four lists of ten new English words for you to learn in a month.
- d) Create your own prompt.

Tell students that they can ask it follow-up questions. Make sure students use English, not their first language. Once students get their results ask them the following questions:

- a) What did you think about the recipe?
- b) Would you go on the trip?
- c) Do you think it's a good way to learn new English words?
- d) Did you like how ChatGPT responded to your own prompt?]

### **11. Look at some statements about ChatGPT and other AI. Choose the statement in each category that you most agree with. Explain your choice.**

#### **a) ChatGPT AND HABITS**

- People will get used to ChatGPT very quickly and they won't be able to live without it – just like everyone uses search engines now.

## What can AI do for you?

- ChatGPT makes mistakes but people will use it anyway. It's just like with websites: they are full of errors and fake news but people still search for information online.
- Most people don't like new technologies and they won't start using ChatGPT in the near future.

### b) AI AND PROFESSIONS

- AI will replace some professions.
- AI will help most professions do their jobs more quickly.
- AI will never be as good as people at doing their jobs.

### c) AI AND SOCIETY

- AI is everywhere. It is a valuable tool to deal with everyday tasks.
- We should be really careful because AI is becoming smarter than us. Who knows what it will be able to do tomorrow?
- People talk about AI a lot but in fact it is not that smart. It might become smarter than people one day but it won't happen in the near future.

## What can AI do for you?

[This worksheet includes an additional task that you can use as homework or revision. It's only available in the teacher's version of the worksheet. Print it and hand it out to your students.]

Read the opinions about ChatGPT and consider how you would respond to them. Write your answers using one of the words or phrases in brackets. You can also use the language in the Useful Language box.

EXAMPLE: It's amazing how quickly technology moves forward. I can still remember the world without smartphones and the internet!  
(personalized, valuable)  
*I can remember the world without the internet, too! But I really like using new technologies. For example, I enjoy talking to ChatGPT because it gives **personalized** answers.*

OR

*I don't think technology moves forward very quickly. I'm waiting for more **valuable** tools like ChatGPT that will make our lives easier.*

### USEFUL LANGUAGE

*I think so, too.*

*I also think that...*

*I agree.*

*You're right.*

*In my opinion...*

*I disagree.*

*I don't think that...*

*I'm not sure I agree with you.*

### Possible answers:

- a) It looks like another search engine to me. You tell it what you need and it responds to your prompt. There is nothing special about it.  
(provide, available)

*I disagree. In my opinion ChatGPT can **provide** more information than a search engine. And when you use it, you don't need to go to several different websites so you can find information faster.*

*OR I also think that it is similar to a search engine because it gives you answers to your questions and is **available** 24/7.*

- b) I don't think ChatGPT will ever be a therapist. People should be careful about how they use it – it's just a machine, not an expert.  
(tool, figure out)

*I think so, too. ChatGPT is a valuable **tool** but it will never replace a person.*

## What can AI do for you?

OR I'm not sure I agree with you. Maybe it will be a better therapist than people? It can **figure out** what to do in any situation and people sometimes don't know what the best solution is.

- c) It scares me to see what ChatGPT can do. And talking to it feels like talking to a human being!

(prompts, expert advice)

I also think that it feels like talking to a person. But ChatGPT is just a machine that responds to your **prompts**.

OR You're right. It feels like talking to a very smart human being because it gives you **expert advice** on different topics.

- d) ChatGPT is unbelievable! The information it provides is always personalized. This tool will change the world!

(respond, figure out)

I agree! I think ChatGPT is great because it can **respond** to any question you will ever have.

OR In my opinion, ChatGPT can be useful with simple tasks but it cannot **figure out** more complex things, for example how to stop wars.

- e) ChatGPT can do the things I do at work every day. I will probably lose my job soon!

(prompts, respond)

I don't think that you will lose your job very soon. But maybe you should start learning how to use ChatGPT, for example how to write **prompts**.

OR In my opinion, ChatGPT will never replace people because it can't do several things. For example, it can't **respond** with a smile.

## What can AI do for you?

Read the opinions about ChatGPT and consider how you would respond to them. Write your answers using one of the words or phrases in brackets. You can also use the language in the Useful Language box.

EXAMPLE: It's amazing how quickly technology moves forward. I can still remember the world without smartphones and the internet!  
(personalised, valuable)  
*I can remember the world without the internet, too! But I really like using new technologies. For example, I enjoy talking to ChatGPT because it gives **personalized** answers.*

OR

*I don't think technology moves forward very quickly. I'm waiting for more **valuable** tools like ChatGPT that will make our lives easier.*

### USEFUL LANGUAGE

*I think so, too.*

*I also think that...*

*I agree.*

*You're right.*

*In my opinion...*

*I disagree.*

*I don't think that...*

*I'm not sure I agree with you.*

- a) It looks like another search engine to me. You tell it what you need and it responds to your prompt. There is nothing special about it.  
(provide, available)
- b) I don't think ChatGPT will ever be a therapist. People should be careful about how they use it – it's just a machine, not an expert.
