- You want to go on a month-long trip to a different continent. Do you hire a travel agency or do you plan the trip yourself?
- You need some expert advice on taxes. Do you talk to an accountant or a lawyer, or do you look for the advice online?

### 6. Read about ChatGPT and answer the questions.

ChatGPT is an artificial intelligence (AI) chatbot. It is trained to answer questions and follow instructions. A user gives it a prompt (a question or an instruction) and ChatGPT responds in seconds. It is a useful tool that can write emails, articles or code, answer test questions, give you expert advice on any topic and much more. Users can also have a simple conversation with it. Just pick a topic you are interested in and start chatting!

- Have you used ChatGPT? If you have, what did you ask it? If you haven't, what would you like to ask it?

### **11. Look at some statements about ChatGPT and other AI. Choose the statement in each category that you most agree with. Explain your choice.**

#### a) ChatGPT AND HABITS

- People will get used to ChatGPT very quickly and they won't be able to live without it – just like everyone uses search engines now.
- ChatGPT makes mistakes but people will use it anyway. It's just like with websites: they are full of errors and fake news but people still search for information online.
- Most people don't like new technologies and they won't start using ChatGPT in the near future.

#### b) AI AND PROFESSIONS

- AI will replace some professions.
- AI will help most professions do their jobs more quickly.
- AI will never be as good as people at doing their jobs.

#### c) AI AND SOCIETY

- AI is everywhere. It is a valuable tool to deal with everyday tasks.
- We should be really careful because AI is becoming smarter than us. Who knows what it will be able to do tomorrow?
- People talk about AI a lot but in fact it is not that smart. It might become smarter than people one day but it won't happen in the near future.
